## DIDSBURY UNIT IS OVER THE TOP IN VICTORY LOAN DRIVE

### Need Support of All The Smaller Investors

According to Mr. C.E. Reiber, the secretary of the Local War Finance Committee, the Didsbury District has gone over the top in its loan drive having exceeded the quota of \$250,000 on Wednesday morning.

The latest figures available showed that 212 people of the district have bought bonds to the extent of \$20,000. This is just over the 100 per cent mark.

This does not mean that the Local Finance Committee is satisfied with the loan. While the quota has been reached the local unit falls short in the number of applications. We were asked to get 100 applications here. We have only sold bonds to 212 people, so if you have not yet bought a bond, do so immediately, by contacting any one of the salesmen, going to the unit headquarters at C.E. Reiber's office, or by applying direct to the local bank branch in Didsbury.

## HALLOWEEN "SHELL-OUT" FUND

The results of the sale of "Shell-Out" tickets this year are very gratifying, and the local representatives of the Kinsmen Club of Calgary wish to thank all those who sold, purchased and collected tickets. It wishes to express appreciation particularly to the children who, each year, are willing to forego "treats" of apples and candy, so that the children of Britain may receive milk.

The Didsbury district purchased tickets to the value of \$125.50, which means that from this district 1425 quarts of milk will be sent to Britain. The Public School prize winners in collecting the tickets on Halloween are as follows:

- Room 1—Jimmy Gale and Jimmy Gale.
- Room 2—Patsy Wood.
- Room 3—Brenda Roberts.
- Room 4—Conrad Platz.
- Room 5—Laura McKay and Barney Barrett.

## TANK REGIMENT RESUMES PARADES

Regular parades of the Didsbury detachment of the Calgary Regiment (Tank) have been resumed after harvest leave.

A varied and interesting syllabus has been prepared, including instruction in new weapons, new tactics and modern equipment. Sports and social activities are also planned.

Young men expecting their army call are strongly urged to join this unit now and take preliminary training with their friends. The local detachment has vacancies for four or five recruits, so give your name to Sgt. Colten, Sgt. Leeson or I-Lt. Hiley without delay.

Join the regiment with an active service rating, the regiment that served so gloriously at Drome, Sicily and Italy. Proudly wear the black beret of the Calgary Regiment (Tank).

## RUGBY NEWS NOTES

Our W.I. Meeting was held this month at the home of Mrs. A. Blane with an attendance of 11. We are asked to gather up current magazines and take to the next meeting, those to be sent to the camps.

A Bread and Baking Powder Biscuit Contest is also to be held next month.

Most of the clothes needed for the Greek Festival, which were turned in, and the Secretary would be glad to receive the remainder of those promised so that they may be forwarded to the War Convoy.

When business was finished an article, written by Mrs. A.H. Rogers giving an account of the annual meeting of the Navy League held at Kenilworth, N.S. was read and discussed, and our A.W.P.s may feel justly proud of Alberta's contribution to this greatly needed work.

The meeting closed in the usual manner, and lunch followed.

Next month we will visit with Mrs. O. Krebs.

## DIDSBURY JOTTINGS

By A.C.H.

Plans for the new house of the future are already drawn up. There is no basement. Heating arrangements are inside the walls. "The only reason we have basements," says the architect, "is because we have to have some place to put the furnace."

We see a pretty gloomy time ahead. "Where will we put the toilet, with the broken seat and no lid? And the piece of fly screen that was left over? And those ten lengths of stove pipe? And those shoes that are too small to be comfortable, and too good to give away?"

Seems to us that half the fun of living in a house is having a business to throw things in, including the children.

The Junior Ladies Aid wishes to thank everyone who helped them put on the lunch at the sale on Monday.

This nice weather comes in handy. We washed off the Halloween antics from the window panes. We wish we could tell Cecil B. De Mille the boys used LUX, and that it left our windows soft and fluffy, and sparkling like new. They didn't and it didn't.

DANCE at Melvin on November 24. Music by the "Mandarinians."

## TOWN COUNCIL ASKS RATEPAYERS TO SIGN POWER FRANCHISE

### Discuss the Provincial Housing Ass'n Plan

A regular meeting of the Council of the Town of Didsbury was held on Monday evening of this week and the following are some of the highlights of the business done:

A By-Law was passed declaring Remembrance Day, Saturday, November 11th, a Civic holiday in Didsbury.

The petition to the Board of Public Utility Commissioners and Wartime Prices and Trade Board regarding the proposed new Domestic Light Rate Structure having been received from the Calgary Power Company, it was decided to request the Domestic Consumers in Town to sign up the Petition as soon as possible.

There was a preliminary discussion on the merits and demerits of the proposed Provincial Housing Association, which may prove of great benefit in the long run, in the elimination of congested housing conditions. In the Province, The Town Clerk says he will give us more particulars about this for a later issue.

Winter may be over the corner. We are not over anxious about the proximity of the corner, but the Town Council does not want to be taken unaware and is making preparations for the skating season. A well has been drilled and there will be a plentiful supply of water for the rink. Also for the curling club, which has agreed to host a portion of the cost. Arrangements are being made for the operation of the skating rink when the season opens.

## REMEMBRANCE DAY

Sunday night was a great night at Knox United Church, at least for those who were able to get in. There was standing room only for some, and many were turned away.

Rev. A.D. Gertie who conducted the Remembrance Day service for the Legion this year, was assisted by Reverends D. Whyte Smith, A.M. Amacher and Earl Archer. Rev. Mr. Gertie, in his address, spoke about the past, the future, and the future, stressing the future, and calling for a more dynamic effort on the part of the Legion and the people of Canada in the winning of the peace and the securing of it.

The Legion extends thanks to the Ministers, the Board of Management of Knox United Church, the Church Choir and Miss Shirley Liesemer, for helping to make the annual service a very beautiful and inspiring one.

Poppies are not selling very well though the merchants have gladly done their bit in buying wreaths. The Legion is grateful to them, but it wants everyone to be wearing a Poppy. In Flanders Fields the Poppies grow. That was thirty years ago, and still they grow, waving their proud heads amongst the grain. As they wave you may see in the distance and in between, little white crosses, row on row, our Lads. So the Poppy for us has become an emblem of sacrifice. The crippled men of the last war still continue to make those emblems in the Veterans shops. Once a year, at this time, the poppy emblems are sold to the public, to assist the war crippled men who made them, and also to assist any returned man who has fallen by the wayside. Want you buy a Poppy? The Legion hopes that the young ladies who have so kindly, in inclement weather, assisted in selling poppies will continue to do so, throughout this week. We thank them, and also all those who buy poppies.

There will be a short service at the Monument on the Butte at 11 a.m. on Saturday, November 11th. All are welcome. The Legion Show, three of them, on Saturday, 11th inst, first show in the Opera House, Didsbury, at 3 p.m., the second at 7:30 p.m., and the third at 9:30 p.m. As was said last week, if as many children as possible attend the afternoon show, and as many Town folk as possible the show at 7:30, it will relieve any congestion, and every one should get a seat. It is going to be a real good show. In addition to the pictures and community singing, the Legion expects our own and only Jack Robertson, to be with us.

## HONORS FOR LOCAL CALF CLUB MEMBERS

Misses Marjorie Clarke and Marjorie Bruce, members of the Didsbury Dairy Calf Club who won the district contest this fall, were accompanied to the Provincial finals at Edmonton last week by District Agriculturist Hugh McPhail, and in the final judging, the local Calf Club members were placed second for the Province of Alberta, and as a result will be given a week's short course at the Old School of Agriculture next summer.

## FORMER SCHOOL INSPECTOR DIES

Lorne Good, former school inspector and Calgary school teacher, 50, of Okotoks, died Wednesday, November 1st in the Calgary General Hospital. Born in Fordwich, Ont., he came to Alberta with his parents in 1908, settling in the Didsbury district where he received his public and high school education. He was a veteran of the First Great War and on returning to Canada attended the University of Alberta where he received his degree in science in 1923.

He taught school at Calgary and Lethbridge, and was appointed to the school inspector staff of Alberta in 1930, and was stationed at Wainwright and later at Okotoks where he has resided for the past three years.

Surviving are his wife, Margaret, one son, Lorne, and a daughter, Isabel, both of Okotoks, also a sister Mrs. Hazel Calkins of Calgary.

Funeral services were held in Lorne's chapel, Calgary, Saturday at 2 p.m. Cremation followed at the Calgary Crematorium.

The late Mr. Good and Mr. C.E. Reiber of Didsbury went to school in town together and many residents of Didsbury will remember Mr. Good.

## WESTCOTT W. L.

13 ladies met with Mrs. Sheldon Owens for the October meeting.

A donation of \$100.00 was given to the Christmas Fund for the Bombard Area in Britain.

The Vegetable Contest was won by Mrs. Faus 1st, and Mrs. Hughes 2nd. The vegetables were donated to the Didsbury Hospital.

## SEEK TO REVIVE THE DIDSBURY FISH AND GAME ASSOCIATION

### Representatives of Olds Ass'n Want Co-operation

Mr. Ralph Scotte and Mr. Ivan Wilson, representatives of the Olds Fish and Game Association were in town Monday in an endeavor to interest local sportsmen in the revival of the Didsbury Fish and Game Association which for years was one of the most active sporting organizations in the province.

We understand that local sportsmen were consulted and that an endeavor will be made to revive the Didsbury Fish and Game Association. In the meantime local sportsmen are urged to get together and call an organization meeting as early as possible.

The Olds Fish and Game Association is putting on a drive this fall and winter to destroy muskies and would like to have the support of an active association at Didsbury to back them up.

## MEMORIAL SERVICE FOR HOWARD DEBODEL SUNDAY

A memorial service was held at the M.I.C. Church, Didsbury, on Sunday afternoon for Howard Debodel, of the Canadian Army, who was killed in action in Italy. Rev. Earl Archer delivered a very appropriate address for the occasion and a large crowd attended the service.

The heartfelt sympathy of the district is extended to relatives.

## HALLOWEEN PARTY AT THE SPRINGSIDE SCHOOL

A Halloween Party was held in the Springside School on October 31st in aid of the Milk For Britain Fund. Typical Halloween games were played and there were chills and thrills galore. Lunch was served around midnight and then the guests departed. The sum of \$80.00 was realized for the Milk For Britain Fund.

## Britain And The Future

A GREAT DEAL IS BEING SAID and written just now about the future. Everyone is aware that we are living in swiftly changing times and that conditions will never again be as they were before 1939. There are definite signs pointing to some of the developments which will come with the return of peace. It is clear that social security is to be an important factor in the post-war economy, and it is also clear that events of the past five years have permanently altered former systems of international communication. These are only some of the changes which we know are imminent. There are other aspects of the post-war picture which are not so clear, and about which there is considerable speculation. While there is now no doubt as to the outcome of the war on the battle fronts, the political results are not so clear-cut and there are many points in this connection concerning which there are few definite conclusions.

### Peak Of Glory Believed Past

One subject, about which many like to speculate, is the future of the British Empire. This interest is apparent among numerous writers and commentators in other countries, as well as among the British people themselves. In certain quarters, the opinion has been expressed, from time to time, that the British Empire has passed the peak of its glory, and that it will emerge from the present conflict as a "second class" power. In support of this argument, it has been pointed out that Russia, with a population of 200,000,000 people, and vast natural resources, appears to be just at the beginning of a period of great expansion, politically and industrially. There is also the United States, with 135,000,000 people, and likewise possessed of great natural wealth. The population of Britain is somewhat over 44,000,000, and in comparison to Russia and the United States, her natural resources are limited, as are her potentialities for increased industrial expansion.

### Some Facts To Be Remembered

There are, however, other considerations which enter into any estimation of a nation's greatness, past or future. In the spectacular events which are marking the climax of the war in Europe, it should not be forgotten that the people of Britain carried on alone in the critical period following the fall of France, and that had their courage and determination wavered then the whole future of civilization would be quite different to what it is today. The people of the Empire have stood firmly together in this war, and have added much to an already proud fighting tradition in all the services. For her part Britain has started a program for the improvement of social and economic conditions throughout the colonies, and has declared her intention of extending Dominion status to India at an early date. In science, invention and the arts the British people have shown that they are second to none, and British statesmen have, for generations given the highest forms of wise and courageous leadership. Consideration of these, and kindred facts, leaves no room for thought that Britain's future will be less glorious than her past.

### A Giant Geranium

Reached Height Of Eight Feet At Sault Ste. Marie, Ontario

Someone should page A. A. Milne to come along and hymn the virtues of the giant geranium which has grown on the grounds of the Sault Ste. Marie Technical School.

For Milne, who once sang of "geraniums red and delphiniums blue," would undoubtedly be interested in a geranium which reached the astonishing height of eight feet as that at the Technical School days, a height which, as has been pointed out, rivals that of Gracie Fields' famous aspidistra.

Certainly such a geranium should be enshrined in literature and Milne is the man to do the job.

The only trouble is that he would probably insist that a comparable "delphinium blue" be also trotted out. — Sault Daily Star.

### Volunteer Workers

W.V.S. In Britain On Duty Day And Night In Air Raids

"Britain will never forget the work of its W.V.S. volunteers," said the directors of the Canadian Women's Voluntary Services, National War Services, Ottawa, recently.

W.V.S. women drove vans day and night, sometimes taking people to shelters from homes at which the flames were already licking," said the directors. "And later in the great blitz their 'Housewives Service' organized the hundred and one small errands that are an large part of work after an air raid."

"After the raid," was an elastic term to these British volunteers. W.V.S. women might have to get up at four in the morning for days on end to come from their own peaceful towns as reinforcing parties and be at their Centre before the "All Clear" sounded."

And in conclusion the directors pointed out that "like all other civil defenders during those dark days in Britain, the women of the W.V.S. had their own homes bombed and their own relatives killed, but they kept on working."

### LIVESTOCK INCREASE

The Dominion Bureau of Statistics said a new high record of numbers of cattle on farms was established at June 1, with the total of 10,346,000 head representing an increase of seven per cent. over June 1, 1943.

### FEW TRAIN ACCIDENTS

Only one train accident on British railways last year involved fatalities to passengers; four people were killed.

## Price Control And Rationing Information

Q.—Can I rent a gun for hunting and secure ammunition for it?

A.—No. Permits to buy small arms ammunition for hunting are available only to registered gun owners whose registration certificates are dated before August 15, 1944. It is too late now to get a permit as they had to be secured before September 30.

Q.—Would you kindly list the contents of ration book 3 so that I can check over my book to make sure everything is in order?

A.—In your new ration book there will be one sheet of pink sugar coupons; one sheet of preserves coupons; goldenrod in color; two sheets of mauve butter coupons; two sheets of blue "M" coupons; sheet of lemon colored "P" coupons; one sheet of black "Q" coupons; two sheets of blue "T" coupons; one sheet of green "S" coupons; and one card marked RB-one ninety-one. If there is any error at all mail or take your book right away to the Local Ration Board.

Q.—Will there be any extra sugar allowed for the making of cakes and cookies for organizations sending parcels overseas for Christmas?

A.—No. Extra allowances of sugar are not made for such purposes.

Q.—Is there a ceiling price on a used bicycle?

A.—Yes, used bicycles have a ceiling price and if you are planning on either purchasing or selling one, it would be advisable to get in touch with your nearest Wartime Prices and Trade Board office and full particulars will be given you.

Q.—I bought a car card about six months ago. I now want to turn this car in and buy another one. Could you tell me what papers I must make out in a sale of this kind?

A.—If you bought a used car only six months ago you will not be eligible for another one until January 1945.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book (the book in which you keep track of your ceiling prices) mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

## Increase Tire Life

Development Of The New Heat-Tempered All-Plastic Tire

Development of the new "heat-tempered" all-plastic tire—a step that eventually may greatly increase tire life—was announced by W. H. Funt, President of The Firestone Tire and Rubber Company of Canada Limited. The development is considered of major importance because the tire is designed to whip the number one enemy of long wear, heat.

This new tire has been developed and now is being laboratory tested at the Akron, Ohio plant. Whether the all-plastic outer ultimately will compete with its rubber colleague will not be known until the company completes the current laboratory examination and the grueling road tests to which the new tire will be subjected.

Experts agree that heat causes most tire failures and that great mileage could be rolled up if the problem were licked. Taking a long step toward achieving this goal, Firestone engineers built the all-plastic to run cooler than today's tires and to withstand twice the heat a natural rubber tire develops at high speeds.

This was done by thermosetting, or "heat-curing," the plastics which went into the 6.00-16 passenger car tire. The "tempering" was achieved by adding certain materials to the plastic and applying heat.

The Firestone all plastic tire, which looks so much like a rubber tire that only an expert could tell the difference, does not crack or check in the sunlight and, unlike rubber tires, it is not soluble in gasoline or oil.

How soon all-plastic tires, if they live up to expectations, will be available for civilian use is uncertain because all tire manufacturing facilities now are devoted to building military and essential civilian tires.

## Guard Against Fire

An Ever Present Hazard Around Farm Buildings

Every day hundreds of farm buildings in Canada and the United States are destroyed by a single enemy—fire.

In many instances, according to authorities these fires could be avoided. This year with farmers working overtime to produce food for the United Nations, farm production should not be impeded even by the smallest fire.

Fire authorities say that all rubbish about the house and the other farm buildings, especially inflammable material, should be cleared away. Smoke pipes should be checked and cleaned out if they've become sooty. The kitchen stove should be on a good substantial base where there is little chance of fire. Electric wiring in the house and barns should be properly installed and checked regularly. Worn wiring constitutes a very real fire hazard.

To guard fires caused by electrical storms, lightning rods should be installed. By the same token, all wire fences enclosing yards, pastures should be grounded to protect livestock from lightning.

Despite all these precautions, fires sometimes start, and when they do, quick action is essential. Fire authorities suggest that water or sandpails and chemical extinguishers are a good investment. These, of course, should be checked from time to time to make certain that they are in good working order.

## SMILE AWHILE

Darling, how can I leave you?" "By train, plane or taxi."

Husband: "Come back for something you've forgotten, as usual?" Wife (brightly): "No, I've come back for something I've remembered."

Walter: Will it be tea or coffee, sir?

Guest: I'm not better. But what else is running?

Ho—No woman ever takes another woman's advice about frocks.

She—Naturally. You don't ask the enemy how to win the war.

Al: My wife always gets hysterical when I stay out late at night.

Ralph: Hysterical, you mean.

Al: No, hysterical. She digs up all my past.

Pupil—Teacher, may I ask you a question?

Teacher—Surely. What is it?

Pupil—Why do we call goods sent by railroads "shipments", while we call those sent by ships " cargoes"?

Mistress: Did you enjoy your day at the seaside, Mary?

Mary: No, I didn't mind; all the picture houses were full, so we had to wander around the beach, and watch the ships all day.

Judge—Guilty or not guilty?

Defendant—Not guilty.

Judge—Have you ever been in jail?

Defendant—No, sir; I never stole anything before.

"A telegram from George, dear."

"Well, did he pass the examination this time?"

No, but he is almost at the top of the list of those who failed.

"Who gave the bride away at the wedding?"

"Her little brother. When the bridegroom said 'I do,' Willie yelled, 'Hurray, sis, you've got him at last!'"

A fly was walking with her daughter on the head of a doctor who was very bald.

"How things change, my dear," she said. "When I was your age this was only a footpath."

Architect—Now if you'll give me a general idea of the kind of home you need.

Prospective Builder — Well, we want something to go with an antique door knocker my wife brought home from Mexico City.

Human tears usually consist of pure water with saline traces.

**HIRE MY FEED PROBLEM**

## War On Cancer

More Money Should Be Spent On Research Work

During the first days of the Normandy invasion the American armies lost an average of 500 soldiers killed a day. But as Dr. Harlow Shapley, a distinguished American scientist, pointed out in a recent speech during the same invasion cancer killed 400 Americans a day.

Yet Dr. Shapley rightly complains that his nation spends less than \$2 in the war against cancer for every \$100,000,000 spent on military war.

The United States is a progressive and enlightened nation and is doing more about medical research than most others. But still it is not nearly enough there or in Canada, for that matter. The large public health programs planned by Canada for the post-war period should provide plenty of money for research, which alone promises to free men from now incurable diseases.—Vancouver Sun.

## Canada Is Contributing Supplies To The Peoples Of Liberated Europe Which Will Be Rationed

CANADA is contributing not only supplies to the peoples of liberated Europe but the experience of her rationing system, according to representatives of UNRRA's Bureau of Areas. Rationing is one of the first things necessary in the setting up of a stable economic system following the arrival of the Allied armies, they report, and the rationing systems of Canada, Great Britain and the United States have been carefully scrutinized in setting up plans.

Since the guiding principle of UNRRA's entire programme is to help others to help themselves, no attempt is made to dictate to the governments of occupied countries as to what form of rationing or price control they shall adopt, but complete plans are ready, either for total application or for modification to suit any specific locality. Generally speaking, the UNRRA system will follow Canada, in that it will be based on commodities rather than points, and that rationing will be extended only to universally needed goods which can be supplied. No attempt will be made to ration luxury goods.

"It is essential to have the tightest kind of ration control," a spokesman from UNRRA said at the recent Montreal conference.

First step in the institution of rationing in occupied countries will be a complete new registration. Europeans, according to recent observers, are used to registrations, and the system not only guarantees the legitimate use of ration cards but will help to locate members of the population who are constantly moving in an attempt to return to their own homes. Police will be in charge of the first registration, with volunteer helpers to take their place later.

No universal system of rationing is planned. In some areas, for instance, there will be a surplus of grain, which will make rationing of grain products unnecessary. In others, grain products will be in short supply.

UNRRA insists on maintaining the normal mechanics of trade in each country, the Bureau of Areas reports. There will be no big public soup kitchens, but ration coupons will be distributed to enable consumers to purchase supplies at stores.

Although a complete set of ration documents has been worked out for application in liberated countries, UNRRA officials constantly stress the point that they will not force any government to accept their system. As far as possible attempts will be made to retain any existing rationing plan and to utilize what local facilities are available.

Many tons of paper will be provided by the administration for the printing of ration documents, but the actual work of printing and administration will be done by the country itself, according to present plans. Experts from the UNRRA organization will be there to advise and, where requested, to direct the printing. The aim will be to set up the machinery to guarantee a stable distribution so that the country itself may carry on.

### Tale Of Horror

#### Cremation Of Children In German Concentration Camp

An eye witness account of the burning and cremation of 1,000 Jewish children in the German concentration camp at Birkenau was given in a London dispatch to the Polish Telegraph agency.

The dispatch quoted the letter of a Polish woman, imprisoned in the camp for seven months and later transferred to a Warsaw prison from which the letter was smuggled out.

More than 65,000 women have died in Birkenau during the two years, the letter stated. These included Russians, Ukrainians, Yugoslavians, Germans and French as well as Polish and Jewish, according to the document. More than 9,000 died in one month this year.

### HAD TO WALK

The earth's first amphibious animals learned to walk on land because they wanted to live in water. These prehistoric creatures, seeing their own pools drying up, started out in search of deeper ones and found they could live on land.

### W.R.C.N.S. Chief

Cmdr Adelaide Sinclair, director of the Women's Royal Canadian Naval Service, as she conferred recently at U.S. Marine Corps headquarters, Washington, D.C.

### The Front-Line Soldier

Knows Going Is Tough Even With Victory In Sight

Those who are tempted to regard this campaign as a World Series in which our side is sure to win would do well to reflect on the kind of job this is for the soldier. Veterans of the First World War may be able to imagine it, for it is not too different from the kind of war they fought. It is the kind of war in which the front-line soldier is never permitted the luxury of complete safety, never gets enough sleep, can't wash or change his wet clothes, eats cold food, and may count himself lucky if the sound that sends him to the rear is not permanently serious.

It is the kind of war in which the breaching of a line, such as the Siegfried, doesn't lead necessarily to the easy rolling-up operation that looks pretty on a map. And when the soldier has been through some weeks of it he may not be sure that he is much farther along than when he started. —New York Times.

### Handicraft Course For "W.D.'s"

—R.C.A.P. Photo

Sgt. Maurette Oliver, B.E.M., of Fairview, Alta., looks up from the scarf she is weaving during the handicraft course for airwomen at MacDonald College, St. Anne de Bellevue, P.Q. The course was under the supervision of Dr. Ivan Crowell of the College and financed by the Canadian Legion Educational Services. Here W.D.'s from No. 2 Training Command and Air Force Headquarters were trained as instructors to open Hobby Huts on their stations that other airwomen may be given a practical knowledge of handicraft to be applied to post-war home-making. Sgt. Oliver is the daughter of Mr. and Mrs. E. E. Oliver and was awarded the British Empire Medal last spring in the King's Birthday list for her work in the Educational Department at Air Force Headquarters. She taught school previous to enlistment and was one of the delegation of students from Canada to attend the Coronation in London in 1937.

## Pictures Life In The Canadian Arctic And Possibilities Of Post-War Tourist Centre At Aklavik

STORIES of life in the Canadian Arctic and opinions on the possibility of developing post-war tourist centres in the North have been brought to Ottawa by Dr. L. D. Livingstone, for 23 years the federal government's medical officer in the sub-Arctic.

### Preparing For Winter

#### Fall Is Logical Time For Repairs And Touching Up With Paint

Fall days are ideal for making repairs and giving the home that necessary touching up with paint in preparation for the winter ahead. With most of the season's insects out of the way, and with much of the foliage gone from plants which otherwise might rub against a new paint job, the way is clear for painting without handicaps.

Fall is the logical time too to get after the little outside repairs which mean so much in keeping a home in top shape, and to make sure that everything is done to make the house as draft-proof as possible before the winds begin to blow cold. Fall brings comfortable painting and repair weather plus the urge to make things snug for the winter.

You will probably be doing these odd little jobs yourself this year, the manpower situation being what it is. So before you start haphazardly, why not take time out to go over the house foot by foot and see what is to be done?

Special attention should be given to doors and windows, which might have spaces around the frames which need caulking, for those are the spaces which are the worst offenders when it comes to draft-leaking in the winter. Any hardware store can provide you with a good caulking material applied by gun or by knife, and the repair job won't show after a coat of paint is applied.

If you are painting the woodwork outside make sure that all the loose and scaley paint is removed, otherwise the new paint job is bound to be a failure and waste of time. Two coats of paint should be used whenever time and opportunity permit. To use one coat only is a false economy.

Drainpipes, waterpots, eaves and other metal fixtures are important at any time, particularly when materials are scarce. Make sure they are well-painted and rust proof, not only to preserve the metal itself but also to avoid dirty streaks on outside walls which result from leaky drains.

If you are putting new glass in any of the storm windows, be sure to give the woodwork and the glass itself the edges a coat of good primer before you put the putty in; and then, of course, you will want a coat of paint over the putty when the job is done. Putty bonds and holds much better on wood or glass which has first been primed.

If you are thinking of a little interior painting as well, there is no time better than in the fall, along with the fall cleaning.

### MILK SUPPLIES IN BRITAIN

Milk figures have been prominent in British news. The amount supplied in the United Kingdom in June 1944 was 145,025,000 gallons; in June in the three years preceding the war, this figure was 125,072,000 gallons. The increase is partly due to the free distribution of milk to schools. There are 50,426 schools participating in this scheme, and the total amount of milk used each day is more than 250,000 gallons.

### CLEVER NEGRO BOY

A 13-year-old Negro boy, Darwin T. Turner, entered University of Cincinnati's College of Liberal Arts as probably the youngest freshman enrolled in the school's 125-year history. His mother, Mrs. Darwin R. Turner, a former school principal, holds four degrees from the university.

### OLDEST ANIMALS

The Galapagos Islands, named for the huge tortoise which once there, are believed to contain the oldest of all living animals. The tortoises found there are known to be several hundred years old.

Buy War Savings Stamps regularly.

Dr. Livingstone told how Eskimos were becoming rich as a result of the good price for furs, and he said he believed that Aklavik, possibly one of the strongest communities in all Canada, will become a tourist centre after the war.

"It is quite common for an Eskimo to make \$5,000 a year, and with the good prices for furs they are getting rich," said Dr. Livingstone, who travelled about describing Eskimos and Indians from Baffin Island to Aklavik, the community which lies just below the Arctic Circle and to the south of where the Mackenzie river empties into the Arctic Ocean.

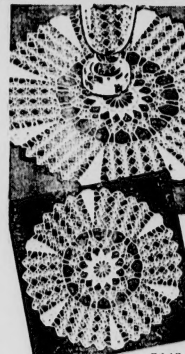

The community, the home for some 75 whites who are mostly government officials, traders and nurses, also is the Mecca for 400 Eskimos who trap muskrats on the Mackenzie delta and white foxes on Banks Island.

Aklavik has distinct advantages over all other Northern communities. A great coal deposit 70 miles east of the mouth of the Mackenzie supplies the community with good coal at \$10 which is cheap for the Arctic. The price could be less if requirements made it economical to develop more adequate methods of transportation.

However most of the residents of Aklavik are turning to oil. They can buy fuel oil at Norman Wells for 14 cents a gallon and it is being laid down in Aklavik for 50 cents. When the oil company has its tank barges in operation on the Mackenzie river, the price will be less.

Dr. Livingstone says he is home to stay and to make sure of it he has bought a 400-acre farm near Bonaventure, but his friends are inclined to think he will not be able to shake the lure of the North.

### This Week's Needlework

7248

by Alice Brooks

Inspired by the antique glass crocheted dollies are lovely. Whether or not you possess this design.

Easily crocheted dollies are an asset in every home. Pattern, 7248, includes instructions for dollies, stitches; list of materials needed.

To obtain this pattern send twenty cents in coin or stamps cannot be accepted to Household Arts Department, Winnipeg, Newspaper Union, 175 McDermid Avenue, E., Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number. Because of the slowness of the mails delivery of our patterns may take a few days longer than usual.

### HE FOUND OUT

When the kindhearted woman shut the door and turned, she found herself faced by her irate maid. "Why on earth must you feed every tramp who comes to the door?" he demanded, heatedly.

"You've no idea," she replied, sweetly, "what a relief it is to see a man eat a meal without finding fault with the cooking."

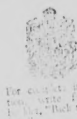

The banana plant produces its fruit within 15 minutes after the root stock is planted.

**DIDSBURY PIONEER**  
ESTABLISHED 1902Published Every Thursday at

insertion, 3 insertions for 1¢.Card of Thanks (not exceeding five  
lines) 50¢ per insertion.ED. J. ROULMAU,  
Editor and Publisher**THIS ISSUE** of The Didsbury Pioneer  
is published under new manage-  
ment, your new editor and publisher  
having purchased the plant and busi-  
ness from Mr. J.E. Gaudet.In coming to Didsbury we realize  
that we are entering one of the most  
prosperous towns for its size in Al-  
berta and it is our hope that we may  
be able to take our part in helping to  
keep it that way.Your new editor is a firm believer  
in home town activities and support,  
and at all times, it will be our earnest  
endeavor to boost for local concernsand improvements that are feasible,  
but not a burden on the people of this  
community.We have added considerable new  
equipment to The Pioneer printing  
plant, which will enable us to turn  
out better work in shorter time, and  
in starting out we trust that the busi-  
ness men of Didsbury will be able to  
see their way clear to give us the  
same if not more support than they  
accorded our predecessor.The kid from your own neighbor-  
hood is in it; the fellow from Sydney,  
Nova Scotia; the one from Red  
Lake, Alberta, also. On October 6th,  
the first official history of this town  
appeared in book form. It's "The R.C.  
A.P. Occasional, The First Forty Years".  
No fiction about this book, but names  
and deeds of our country's flying  
boys—the young lads to whom the  
British Isles, Europe and North Al-  
berta were yesterday no more than col-  
ored blotches on the map. Recording  
deeds have been busy for a long  
time compiling the activities of RCAF  
units, and for recording interesting  
reading this book is a "must".When the tally was completed as  
of June 1st, a new high was shown  
in the number of cattle on farms in  
Canada. The total of 1,043,000 is an  
increase of 7 per cent over the pre-  
vious year, with the greatest gain be-  
ing in the province of Saskatchewan.  
These 1,043,000 cattle, milk cows  
except for 319,000.Horses declined by 10,000 showing  
a population on farms of 2,335,000.  
Sheep were up by 8 per cent with  
3,726,000. Hens and chickens went  
up by 18 per cent with a total of 86,792-  
000.**Weekly Consumer Branch item:**  
With rainy weather and colder days,  
it is interesting to hear that the  
use of the new waterproof plastic sole  
has been extended to infants' shoes.  
At first "Visole" was confined to the  
manufacture of kiddies' shoes. With so  
much leather going into boots for the  
armed forces, and with the heavy de-  
mands for every scrap of leather,  
manufacturers have found it difficult  
to meet the civilian footwear demand,  
so it is felt that visole will now help  
supply the needs. Shoes with the new  
plastic soles cost only a little more  
than those with ordinary leather sol-  
es and experiments show that they last  
longer. Materials going into the man-  
ufacture of visole is all-Canadian—  
limestone, coal, salt and water. That  
ought to recommend it!Only the United States, Russia and  
the United Kingdom exceed Canada in  
the output of steel, our plants having  
produced their overall output since  
1939. We produce steel at the  
rate of 200,000 tons a year. Our in-  
dustries had no previous experience in  
making armour plate, but this didn't  
stop them from meeting all require-  
ments for tanks, armoured vehicles  
and some naval purposes.**Now on Sale!****HIGH QUALITY FLOUR

**SHOULD FINISH CATTLE**The Alberta Department of Agri-  
culture points out that only well-finished  
cattle can be disposed of at full  
prices in the Calgary and Edmonton  
stockyards at the present time. There  
is virtually no demand for thin cattle  
and the department suggests that they  
should be held over and fed on farms  
so that they will come on the market  
after the New Year. It also points out  
that if Ontario's farmers consider it  
good business to buy western feeder  
cattle and then buy western grain to  
feed these cattle, it should pay Al-  
berta farmers to combine these two  
products right on their own farms.Do you know that since the war be-  
gan vegetable seed production in Can-  
ada has become a relatively important  
industry? Prior to 1939 most of the  
field root and vegetable seeds used in  
Canada were imported from European  
countries, but when these countries  
were invaded and occupied by Ger-  
mans, our home production became a neces-  
sity. With the assistance of the De-  
partment of Agriculture Canadian-grown  
seeds are now even a higher quality  
than those grown previously  
in Europe and are produced in suffi-  
cient quantities to meet all domestic  
needs.**ALBERTA WHEAT CROP WILL  
BE ABOUT 115,000,000 BUS.**A crop survey issued Tuesday by  
Agriculture Minister D.B. MacMillan  
showed that Alberta will harvest an  
estimated 115,000,000 bushels of wheat  
this year, an increase of 35,000,000  
over 1943.Oats production is estimated at 127  
million bushels, nearly two million bu-  
shels less than the 1943 yield. Pro-  
duction of barley is estimated at 56  
million bushels, about the same as  
last year, and flaxseed is estimated to  
yield 1,230,000 bushels, a drop of over  
2,000,000 bushels from the 1943 figure.**WHEN GRANDMA WAS A GIRL.**Grandmother, on a winter's day,  
Milked the cows and fed them hay,  
Stomped the horse, saddled the mule  
And got the children off to school;  
Did a washing, mopped the floors,  
Washed the windows and did some  
chores;  
Cooked a dish of home-made fruit,  
Pressed her husband's Sunday suit,  
Sweet the porridge, made the bed,  
Baked a dozen loaves of bread,  
Spilt some firewood, and lugged in  
enough to fill the kitchen bin;  
Cleared the lamps, and put in oil,  
Steered some apples she thought would  
spoil;Cooked a supper that was delicious  
And afterwards washed up all the  
dishes,  
Fed the cat and sprinkled the clothes,  
Mended a basketful of hose;  
Then opened the organ and began to  
play,  
"When You Come to the End of a  
Perfect Day."First Workman (very angry).—Did  
you tell Bill I was three parts dirt?  
Second Workman.—No, I thought he  
knewed.**OUR APOLOGY, PLEASE**Owing to the installation of addi-  
tional equipment in the Pioneer office  
this week's paper has been published  
in a rather hurried manner, and we  
have not been able to devote much  
time to news gathering and making-up.  
However, now that we have our ma-  
chinery in shape we will endeavor to  
put more time on the paper in the  
hope that it will meet with the ap-  
proval of our subscribers and adver-  
tisers.**Professional.****J. L. CLARKE, M.D., L.M.C.C.**PHYSICIAN & SURGEON

for the people of Canada and who paid the  
price in blood and sweat. It is a story of  
bravery and sacrifice. It is a story of the  
men who fought for the people of Canada  
and who paid the price in blood and sweat.**Care for the Wounded and Ill —  
CANADA'S TREATMENT  
AND PENSION LEGISLATION**Canada has assumed a minimum obligation to members of the armed forces  
that, before their return to civil life, the fullest possible measures shall be  
taken towards physical fitness, and that pension shall be provided for any  
permanent disability due to service. Full medical service is provided and  
permanent disability has been established from coast to coast. Equipment for  
veterans' hospital have been established from coast to coast. Equipment for  
the most modern types of treatment has been placed at their service  
in all branches of medicine and surgery have willingly placed their services  
at the disposal of veterans.There is free treatment with allowances to every declared person for  
the first year after return to civil life and free treatment with allowances for  
permanent disabilities. A complete dental service is provided.Those declared fit from the forces unable to work and in need of a permanent  
treatment may, after pay and allowances, be sent to coast to coast. If  
necessary, and for longer when treatment is still required for a permanent  
condition.**PENSIONS**Pension is awardable under three simple and easily understood conditions:  
1. When the veteran has served in a theatre of war, death or any permanent  
disability due to that service is pensionable.  
2. (a) When the veteran has served in Canada only, death or disability caused  
by service is pensionable.  
(b) Death or serious disability not due to service may be pensionable if  
hardship would otherwise result.**JOB FOR DISABLED**A very wide program of education is being carried on continuously so that  
veterans who suffer a disability as a result of their war service may have a full  
and happy future. Many volunteer organizations are assisting in this work,  
while specialized help is available from such organizations as the War Ammu-  
nitions of Canada, the Canadian National Institute for the Blind, and the  
Canadian Society for the Deaf and Hard of Hearing.**THE COMMUNITY'S RESPONSIBILITY**The series of advertisements has a goal, in brief form, an outline of the  
Canadian responsibility for the reserve men and women. It can provide  
responsibility, however, is not entirely that of Parliament. The public  
legislation and laws but in the final analysis it must be the veterans them-  
selves and the people of Canada who make the program work. The public  
support to the men and women, but successful administration requires further  
public support. Understanding and effort by the whole people are needed.VETERANS' WELFARE OFFICERS ARE STATIONED  
IN KEY CENTRES THROUGHOUT  
CANADA. THEY ADVISE AND ASSIST EX-  
SERVICE PERSONNEL, AND SHOULD BE  
CONSULTED ON ALL PROBLEMS.

Issued under the authority of Hon. Ian A. Maclean, Minister of

She would not amount to much, Linwood Haven decided, when the Belknap brood settled on the old Kulkem farm, and John Belknap began building chicken coops all over the rundown place. Lucy was the eldest of nine, but she looked about the middle one, with those big brown eyes and that tawny mop of rust-red hair. She was so skinny and undernourished, so eager and passionately earnest in everything she said and did.

It was Lucy who had the perfect attendance mark in Sunday School each year, though the lake road was a sea of mud and slush from November to April. It was Lucy who got the rest of the small Belknaps into clean clothes made from factory remnants, and marched them daily to the little red schoolhouse in the Haven. Lucy believed in things.

And later, when the chicken venture had proved a failure, and the Linwood National was ready to foreclose if they didn't have a payment plus interest, Lucy got a job afternoons taking care of the Kingsley children and turned her small salary over to the bank.

Through her remaining three years in high school, she earned money at anything from cleaning paint and doing up curtains to cooking a company dinner.

She spent little on herself. But her mother always had a good coat and good shoes, and the boys all went to school.

By that time John Belknap was in the ice business, which, surprisingly, did not pay, and once more the two older boys and Lucy cleared up the mortgage while their father dreamed up a fresh scheme to get rich quick.

The new road was going through that year, and Belknap decided it would have to go past his farm to link the two trunk lines. So he built five tourist cabins, and settled down to await the rush of business.

The road went over Winona Mountain and the tourist bubble became a punctured dream. It was Lucy's graduating year. She was valedictorian, and her theme was: "Make A Place For Yourself In Your World." It made front-page headlines in the Linwood Evening Sentinel.

The city editor of the Sentinel offered Miss Belknap a job on the paper at fifteen dollars a week, with a chance to work up, and the Melody Music Shop telephoned to offer her a job at twelve. Lucy declined both offers.

The ice business was busy failing, and she had majored in Home Economics, a subject that would get a business girl nowhere, as anyone in Linwood Haven could testify. It was for boys who wanted to learn machine work, and girls who had matriculated on their minds.

"A girl as smart as that Lucy Belknap should teach," opined the town.

"I don't want to be a teacher," Lucy declared. "I like to cook!"

"Bah! Food Shoppe, probably; a dreamer like her father."

"No food shop, ever paid its way in this town," Lucy argued. "This is an industrial centre, and people buy bakery products, not home cooking."

That same month the Linwood Trust wanted a payment, or else Lucy's father's savings deep down in one pocket and boarded a train for Hartford. She landed a job with the Tri-State Utilities Company as a demonstrator, and soon had delighted office members sampling a long sheet of flaky baking-powder biscuit she had baked.

"When I bake biscuits like these on one of your electric ranges," Lucy said, "mediocre cooks will believe they can do the same."

She sent the vice president of the company around the corner to buy maple syrup to offset the biscuit, then busied herself making an apple pie.

That night she telephoned her mother to come. "I've a small apartment, Mother," Lucy said. "I want you to stay with me a while and

rest up. Don't go back home until Father gets a job and quits this visionary nonsense. Mother," she advised earnestly. "You've gone without all your life, to further his wild schemes. Now let him see they're silly."

The bank took back the farm, as everyone had always known they would. And of his nine children, the one John chose to live with was Lucy.

"Nothing doing," Lucy told her father. "I'll look after Mother; you make the others take care of you."

"Man hater," John Belknap accused her. And the bluish that betrayed the freckles beneath her smooth make-up was all the answer she gave.

And not one of us would tell on her. Not when we attended the Lucy Belknap Cooking School and learned how to make her heavenly lemon meringue pie, her feathery Parker House rolls, or baked ham supreme.

Because the man who came along to help her in the sales of kitchen equipment was none other than Brad Hart, whose father was top man in Tri-State. Brad had gone to Linwood High School.

It was because Lucy had loved Brad for years that she'd had to have her career. Had he been anybody. It was her idea of the best way to match so much money—and so much worth. Together, she and Brad would weld their careers into the solid foundation on which they'd built a successful marriage. Lucy had always known this to be her destiny.

**Child's Jumper Suit**

By ANNE ADAMS

Look, Mother—only one yard needed for this cute jumper! Make Pattern 4505 with matching jacket. Make blouse too, from one pattern. Pattern 4505 in children's sizes: 2, 4, 6, 8 and 10. Size 6 jumper takes 1 yard 35-inch fabric; jacket or blouse 1/2 yard 35-inch.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. (Because of the slowness of the mails delivery of our patterns may take a few days longer than usual.)

**SQUARE DEAL**

I believe that every man is entitled to earn a living, to fair wages, to reasonable hours of work and proper working conditions. I do not want to go to the factory to learn, to worship and to love, as well as toil, and that the responsibility rests as heavily upon industry as upon government or society, to see that these conditions and opportunities prevail. John D. Rockefeller Jr. to Chamber of Commerce, Dec. 5, 1918.

**REPAIR HOMES IN BRITAIN**

Building labor in London has been doubled in order to repair houses damaged by flying bombs. Skilled workers from all parts of the country have been drafted in and men from the Services are assisting. In the middle of June, those engaged on general repair work in London numbered 24,000. By July 3 the total had been raised to more than 30,000, and by the end of July nearly 60,000 were employed.

**AN ANCIENT LAW**

If you owned a big dog and lived within 10 miles of the king's hunting preserves, in ancient England, the dog's knees were cut to prevent his chasing the royal game. 2501

**Operational Flight**

Two Polish Pilots Had Interesting Experience

Proof of the excellence of British workmanship was given by two Polish pilots recently. On the same operational flight their Mosquitos were badly damaged but they went on to the target, bombing it and bringing their damaged aircraft home.

Running into a stream of flak shells which burst so close that the crew could hear the detonations above the roar of the engine, a Polish pilot and his navigator suddenly felt their Mosquito quiver. There was a great explosion and the aircraft banked on to the starboard wing. Getting it back to level flight and out of the flying shells cost a considerable effort, and the crew found themselves well inside France. Taking stock, the pilot found that a great strain on the steering wheel was necessary to keep the aircraft flying level. The instrument told him that the motors were in order, but the navigator examining the airframe reported a large hole in the port wing. They decided to carry on and bomb the target which they eventually found, and attacked from a very shallow dive, as the pilot being unaware of the exact extent of the damage did not want to dive too steeply in case the wing came off.

They recrossed France at low level and made a normal landing at the first base they saw in England.

Leopards are the most dangerous beasts in India.

**Hopeless Cause**

Nazi Planes Drop Beetles On Potato Field In Britain

Colorado beetles dropped on Britain's potato fields by Nazi planes, constitute merely a further evidence of the desperation of our enemies, less spectacular than the robot bombs but none the less reliable. It is almost ludicrous to believe, of course, that enough of the pests could be scattered to do serious damage, particularly when Germany's ability to send over planes is strictly limited. This new scheme of sabotage distinctly resembles the clutching of a drowning man at a straw. We should be thankful for this further proof that the Hun is now convinced his cause is hopeless.—Windsor Star.

**Improve Your Health by Correcting Sluggish KIDNEYS**

This Way is Swift, Economical

Few conditions can wreck your health faster than disordered kidneys and inflamed bladder. Your back aches miserably. You have restless nights. You suffer leg cramps and rheumatic pains. When these things happen your kidneys need help in filtering out acids and poisonous wastes that are undermining your health.

Give them this help—quickly—with GOLD MEDAL Haarem Oil Capsules. GOLD MEDAL Capsules contain accurately measured amounts of the original and genuine Haarem Oil (Dutch Drops). You will be gratefully surprised at the way they relieve clogged kidneys and irritated bladder. Go to your druggist now and get a 40c bottle. Be sure you ask for GOLD MEDAL Haarem Oil Capsules.

**Serve Muffins On Your Breakfast Table**

Then here's the perfect combination—All-Brain, apples and spice all rolled up into a delicious hot muffin! And what's more, these extra good Spicy Apple Brain Muffins will give you plenty of vitamins, minerals, and energy to last until lunch time!

Make them a "must" for tomorrow's breakfast and just watch them disappear!

**SPICY APPLE BRAIN MUFFINS**

- |                          |                           |
|--------------------------|---------------------------|
| 3 tablespoons shortening | 1 cup sifted flour        |
| 1/2 cup sugar            | 2 teaspoons baking powder |
| 1 egg                    | 1/2 teaspoon salt         |
| 3/4 cup All-Brain        | 1/2 teaspoon cinnamon     |
| 1/2 cup milk             | 1/2 teaspoon nutmeg       |
| 1 tablespoon sugar       | 1/2 cup chopped raw apple |
|                          | 1/2 teaspoon cinnamon     |

Blend shortening and sugar thoroughly; add egg and beat well. Stir in All-Brain and milk. Sift flour with baking powder, salt, cinnamon and nutmeg. Stir dry ingredients and chopped apple into first mixture; stirring only until flour disappears. Fill greased muffin pans two thirds full; sprinkle with mixture of sugar, cinnamon and nutmeg. Bake in moderately hot oven (425 degrees F.) about 20 minutes. Makes nine muffins (2 1/2 inches in diameter).

**NOTICE**  
Saturday, November 11th, Remembrance Day, has been declared a civic holiday in the Town of Didsbury.  
By Order of The Council

**NOTICE**  
The Town Council of the Town of Didsbury urgently requests all Domestic Light Consumers in the Town to go as soon as possible to the Town Office, and sign the Petition to the Board of Public Utility Commissioners and the Wartime Prices and Trade Board, which, if it is sufficiently signed, will enable the Calgary Power Company to put into force the new proposed Domestic Light Rate Schedule, which will effect a big saving, and be of great benefit to the Town as a whole. Please do not delay signing the Petition.

W. A. AUSTIN,  
Secretary-Treasurer

The Ladies of the Red Cross Tea Committee are having a tea and food sale Saturday, November 18th, in the basement of Knox United Church. It has been some time since we have had a sale, so let us make up for lost time and do our best.

Have You Bought a Victory Bond?

#### EVANGELICAL CHURCH NOTES

Morning worship service will be held at 10:30 a.m. Dr. W.W. Krueger of Regina, Sask., will be the guest speaker at the evening service, 7:45 p.m. The second quarterly Board Session will be held after the service. Services at Bethel at 2 p.m. The Rutland Mission Circle will hold a meeting on Friday evening, November 10, at 8:00 p.m., at the home of Mr. Ed. Hayes. This will be a musical evening. The Bill Hospar will sing several selections.

#### M. E. C. CHURCH NOTES

Rev. R.P. Dittmer of Springfield, Ohio, will hold special meetings in the M.E.C. Church beginning Sunday, November 12 and continuing through November 19. The services will be at 2:30 and 7:45 on Sunday, and 8 o'clock each week day, except Saturday. On Wednesday, Nov. 15, Missionary Convention will be held with Mr. Dittmer, our superintendent of foreign mission speaking at 10:30 a.m., 2 p.m. and 8 p.m. Everyone is invited to attend these services.

Jones: "What do you shave with in the morning?"  
Smith (chatterly): "My wife's hand-saw cutter."

#### WE WANT THE NEWS

As a newcomer to Didsbury your editor is not acquainted with the people of the district and the organizations therein, and we must rely on individuals and the secretaries of the various organizations for items of news each week. We are therefore asking anyone with items of news to kindly phone or send these in to The Pioneer, preferably not later than Tuesday noon to insure publication. "In this way we will be able to publish a much newer paper and continue to improve as we become better acquainted. District correspondents are particularly invited, and again we ask that they have their news budgets in as early as possible in the week.

#### LEGAL ADVICE TO DEPENDENTS

Soldiers' dependents desiring legal aid regarding his or her personal affairs are advised to apply in writing to the Dependents' Advisory Committee of the Dependents' Board of trustees, headquarters of M.D. 13, announced recently.

The application will then be considered by the board and if it is then thought that the services of a solicitor are required arrangements will be made accordingly by the committee.

#### POSSIBLE TO LIVE 130 YEARS

NEW YORK—Dr. Theodore Klump of the Winthrop Chemical Company predicted to the American Chemical Society recently that it is "biologically possible for many of our children or our children's children to live in good health for 130 years." He said that would come about through development of medicinal chemistry.

Those who have relatives among the 548 Canadians held prisoners in Hong Kong will be glad to hear the report that conditions have been fairly tolerable for them. Red Cross food and clothing parcels have recently arrived and are being distributed. Camps are well organized, and treatment is good.

#### LOCAL & GENERAL

Mrs. O.W. Stauffer entertained a few of the Didsbury ladies last Thursday afternoon at a quilting bee, in honor of her guests, and tea was served. All report a very enjoyable time.

Lieut. J. Delmar Foote, RCNVR, who has been visiting his parents, Mr. and Mrs. A.H. Foote, left Monday for Ottawa for further posting.

Our thanks this week goes to Harvey Shantz who moved our equipment over from Carbon. Mr. Shantz had a seven ton load and the moving was done without a mishap of any kind.

Miss Lois McLean of Calgary is visiting with her grandparents, Mr. and Mrs. Theo Reist and other relatives in the district this week.

Mrs. Pearson received a card last week end from Mr. and Mrs. J.E. Gooder who are motoring to the coast, leaving left Thursday from Didsbury. They reached Fernie the first day and reported fine weather, after the blistery weather here last week.

A large crowd attended the Lee Sanderman sale on Monday. The Ladies Aid served lunch and cleared over \$80.00 for their efforts.

Mr. and Mrs. Clarence Wall and daughter left Sunday for Carbon, where Mr. Wall will be the editor of the Carbon Chronicle.

Snow fell in Didsbury last week, but the weather turned mild Sunday and we are now having another spell of fine Indian summer.

Mrs. O.W. Stauffer has had as her guests her daughter-in-law, Mrs. A.R. Driver of Detroit, and her daughter, Mrs. Arthur Stewart, and little son Dennis, of Edmonton.

Rev. A.D. Currie of Olds is being transferred to Brooks. His last regular service at St. Cecilia's Anglican Church, Didsbury, will be conducted on Sunday, November 12, at 3 p.m.

Mayor and Mrs. W. Paxon of Drumheller were visitors in town Tuesday night at the home of their son-in-law and daughter, Mr. and Mrs. E.J. Rouleau and family. Mr. and Mrs. Paxon are on their way to Vernon, B.C. for a three week's vacation.

"The Gang's All Here," with Alice Faye, Carmen Miranda and other stars is the picture showing at the Didsbury Theatre Thursday and Friday, On Saturday, November 11th, the picture is, "Mr. Winkle Goes to War," and will be especially put on for the Canadian Legion. On November 12, 13 and 14 the feature will be, "North Star," with Anne Baxter, Dana Andrews and Walter Huston.

#### NOTICE

The Town Council of the Town of Didsbury is open to receive offers to lease the Skating Rink Concession for the forthcoming season. The Town owns the Lease \$100 for free skating privileges for Public School children during the season, and reserves the right to fix periods during which free skating is to be provided. The Lessee provides all the labour required in making ice, and generally in the operation of the rink, and bears the cost of electric lighting, and any other expenses incurred in connection with the said operation. He receives all profits accruing from sale of season tickets and admission charges, and bears any losses. Applications should be in the hands of the undersigned on or before November 20th.

W. A. AUSTIN,  
Secretary-Treasurer,

**LET'S** be quite frank—When you read—as you probably did during the past few months—that more than 300,000 people in Canada have syphilis, what was your reaction? Did you say, "That's too bad; something should be done about it", and then turn to the comic paper? Chances are you did.

But if that article had told you that Tommy Jones, the lad who used to mow your lawn after school, had syphilis—how would you have felt about it? Or that the young couple who built that cute house in the next block, had just lost a baby through syphilis... would that have made you stop and think?

Or, if you suddenly discovered that your Mar... No? That couldn't happen! But it can. And it does... to hundreds of Tommies and Marys every year, right here in Canada. Right in your community. You'll

never read articles like that, of course, for these are the personal tragedies that people live in silence.

So, when you pick up the paper sometime and read... there were 5,000 new **VENEREAL DISEASE** cases reported in this province last year... remember! These are not cold figures. They represent 5,000 heart-breaking... heart-aching situations.

Yes, **VENEREAL DISEASE** is a serious problem. It's a problem for parents; for taxpayers; for young people on the threshold of life; for everyone.

**VENEREAL DISEASE** need never strike if we do our part. If we know the facts, if we use these facts to advantage. If we don't shrug our shoulders and say, "This couldn't happen to anyone in my family."

You have a duty to your family and the community.
